Subject: Uber IS legal.

Hi, I'm a college student and uber is the safest and best thing to happen to students at the University of South Carolina. Whether you need a ride home from the library late at night or were out drinking, uber provides an extra safe option to get home. Cabs have insane wait times and with uber those times have gone down, making both uber AND cabs easier to use. Additionally uber has your debit card on file in case you're in a bind and don't have cash or card on you.

Most importantly, the city of Columbia is not a safe place to walk around at night, and uber has changed the culture for students here. You are utterly stupid and putting lives at risk for situations like previous attempted or successful armed robberies and shootings in public areas. Uber should be legal and honestly in defense of my safety I will not stop taking them. Thank you for your time.

Sincerely,
Megan Farley

Cab service in Greenville sux! Their cars stink, their drivers are scary, and it's pot luck if and when they show up! I've had so many bad cab experiences, I'd go to any length not to have to use one, and in the past year, haven't.

If I want someone to drive me somewhere, I'm either using Uber, a friend, a friend's teenager. I'm probably not going if it requires a cab.

Will Pouch
Greenville

PS: I'm pretty sure \$1MM in liability coverage is more than \$50k. I'll go for the Mil

Dear Sir,

I wanted to voice my opinion on the Uber service shutdown in SC.

I do not believe that it is in the public interest to have non-competitive car service.

In areas with poor service and limited taxi service, it provides an invaluable service.

Have you, sir, ever been in a nasty cab with a driver who is rude, drives like a maniac? What recourse do you have? Get the cabbie's registration number and report it to the commission?

With Uber you can report it immediately. There are immediate repercussions. All drivers and riders are rated.

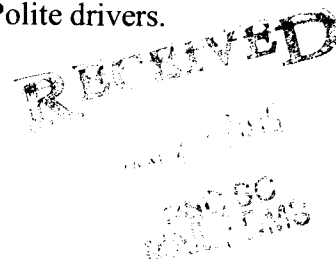

Also, you can get a known price for a ride. Crazy! How many times have you been in a cab, and not known what the final price will be????

My experience with Uber has been overwhelming positive. Clean cars. Polite drivers.

It is time to change the paradigm.

Best Regards,

Sean Priddy

This is ridiculous to stop UBER's operations in South Carolina! I have enjoyed using UBER's services across the country and can honestly say this service is so well known and used by business people and travelers that by canceling this sets SC back. I guess it is clear now why we rank so low in many state polls with politics like this.

Please reinstate UBER's business license immediately!

Sincerely
Nathan Robirds

Subject: Uber

I have used Uber across the country as I've traveled, and I was very glad to be able to use it here at home in Columbia. The management of customer expectations through technology that Uber offers is invaluable. South Carolina is a great state, but sometimes we stifle innovation. If Uber doesn't fit within the traditional regulatory model, please work with them on a better way to accomplish your goals. Thank you for your consideration of this comment.

Best regards,
Carmen Thomas
